

## City Park Wireless RFP Q&A

Q - Is this RFP equipment only? Will there be any data drops needed or any installation of equipment?

A – This RFP is for equipment only, NO installations of any kind are required.

Q - I've already engaged my HPE/Aruba team to see if we can get you special pricing on your requested hardware items. However, we are vendor neutral & work with a variety of vendors – so are you open to seeing other manufacturers with a lower cost or better solution? Let me know.

A – Please refer to the RFP for technical specifications. Those identify what we are looking for.

Q - Also, have you applied for E-Rate or are you familiar with the E-Rate process? If not, that is something I will also be able to assist you with.

A – Dalton Public Schools is familiar and leverages the E-Rate program.
